PROFESSIONAL SUMMARY

Senior AI/Frontend Engineer with 20+ years shipping production React, TypeScript, and Next.js systems at scale. Volvo Certificate of Excellence 2024. At BCG (2024-2025), coached engineering teams on AI-powered development, reducing cycle times 30% and defect rates 20%. Fluent in modern frontend tooling (React 18, Next.js 14, Tailwind CSS, Zustand, React Query) with deep expertise in WCAG-compliant accessibility, performance optimization, and code quality. Mentor and technical leader: taught frontend at University of Borås (2018-2020), led teams at Chalmers and Sigma, advise on best practices. Seeking senior IC role to own significant codebase, mentor junior developers, and influence frontend architecture at scale.

CORE COMPETENCIES

React 18	TypeScript	Next.js 14	Tailwind CSS	Zustand	React Query	Jest	Playwright
WCAG Accessibility	Performance Optimization	Frontend Architecture	Code Reviews	Mentoring	REST APIs		
CI/CD (GitHub Actions)	B2B SaaS						

WORK EXPERIENCE

Västra Götalandsregionen

Sep 2023 - May 2024

Senior Front End Lead Developer

Göteborg, Sweden

- Designed and implemented frontend architecture and CI workflow using React, Next.js 14, TypeScript, and Tailwind CSS with LLM-driven code generation and test scaffolding.
- Integrated ChatGPT APIs for conversational search and content assistance, reducing manual librarian workload while maintaining WCAG 2.1 AA accessibility compliance.
- Established AI-assisted analytics pipelines and documentation workflows, using LLMs to summarize usage data and surface actionable insights for product decisions.
- Coached cross-functional team on safe and effective use of AI tooling in React/Next.js stack, reviewing AI-generated code for security, performance, and accessibility.
- Owned 80K+ LOC headless CMS frontend serving regional library network; shipped production features with zero regressions.

Boston Consulting Group (BCG)

Aug 2024 - Nov 2025

AI Software Engineering Advisor

Stockholm, Sweden

- Coached engineering teams and CTOs across 5+ portfolio companies on AI-powered development adoption; measurable results: 30% cycle time reduction, 20% defect rate reduction.
- Facilitated hands-on pair programming sessions, live code reviews, and workshops integrating GitHub Copilot, SonarQube, OpenAI Codex, and custom LLM integrations into daily workflows.
- Spearheaded AI SDR platform (SaaS AI) handling 100K+ chats with founders and B2B executives; autonomously reviewed 1K+ speaker submissions for SaaS Annual.
- Empowered teams to move beyond theoretical AI strategies and achieve lasting gains in productivity, quality, and developer satisfaction.

Sigma Technology Group AB

Dec 2021 - May 2024

Senior Front End Developer

Göteborg, Sweden

- Conducted code reviews and provided mentorship to junior developers on React, TypeScript, and Next.js best practices, fostering continuous improvement culture.
- Implemented microservices architecture using Node.js, Docker, and REST APIs; improved system scalability and team velocity.
- Formed advisory board with senior engineers to guide company through AI-driven development transformation; established playbooks for architectural decisions.

Chalmers University of Technology

Jan 2022 - Jun 2022

Senior Front End Lead Developer

Göteborg, Sweden

- Led team of 5 engineers in shift from React-only to Next.js 14, TypeScript, and Node.js architecture; shipped production platform serving university content delivery.
- Coached junior developers on Next.js/TypeScript and safe use of AI coding assistants; established DevOps practices, Git conventions, and CI/CD pipelines.
- Created comprehensive frontend playbook documenting patterns, standards, and onboarding material for team standardization.

FEATURED PROJECTS

Leijon Finance & Wealth Management

Dec 2023 - Present

Lead developer on comprehensive digital platform integrating traditional banking, investments, and legal services. Designed scalable architecture with React, Next.js 14, TypeScript, Tailwind CSS, GraphQL, and Node.js backend. Implemented Role-Based Access Control (RBAC), advanced credit scoring (FICO + VantageScore), and secure multi-factor authentication. Technology: React, Next.js, TypeScript, Tailwind CSS, GraphQL, PostgreSQL, Python, Gemini, ChatGPT, Claude.

Västra Götalandsregionen Library Platform

Sep 2023 - May 2024

Designed and led frontend architecture for collaborative web application serving 50+ regional libraries. Built headless CMS frontend with React, Next.js, TypeScript, Tailwind CSS, and Umbraco REST APIs. Integrated ChatGPT and LLMs for conversational search and automated content assistance. Achieved WCAG 2.1 AA compliance across entire platform. Implemented CI/CD workflows with GitHub Actions.

Financial Assessment Application

Dec 2022 - Feb 2023

Led frontend development for comprehensive financial capability assessment platform. Built custom UI with React, Next.js, TypeScript, Tailwind CSS, React Hook Form, and ApexCharts for business statistics visualization. Implemented mocked API layer using Next.js API routes; later integrated with real backend. Utilized LLMs for UX copy refinement, design iteration, and technical documentation.

EDUCATION

Front-End Developer with React Massachusetts Institute of Technology

2017

Bachelor of Science in Informatics (Library and Information Science) University of Borås

2014

CERTIFICATIONS

Sr. Front End Developer, Certificate of Excellence Volvo

2024

Front-End Developer Meta

2023

ReactJS Developer TESTDOME

2020

TECHNICAL SKILLS

Frontend: React 18, TypeScript, Next.js 14, HTML5, CSS3 Styling: Tailwind CSS, Material UI, Bootstrap

State Management: Zustand, Redux, React Query, Apollo Client Testing: Jest, Playwright, Cypress, unit/integration/E2E

Backend: Node.js, REST APIs, GraphQL, PostgreSQL DevOps: Docker, CI/CD, GitHub Actions, Git/GitFlow

Accessibility: WCAG 2.1 AA, semantic HTML, ARIA Tools: VS Code, Figma, Linear, GitHub, AWS

Languages: Swedish (native), English (full professional proficiency)
